DEPARTMENTAL PROFILE

Dept. of Education:-

Introduction- With the changing era the meaning has changed on the part of teachers as well on the part of student. The meaning of education is not confined to class room teaching but is more towards skill development and preparing the child for future life. Now when B.ed has become more elaborate aims to develop some skills in the Pupil teacher.

The teacher should have enough knowledge of the present conditions. He should be able to understand the needs of the students. He should create a motivating environment in the class. He should facilitate such conditions which enhances learning.

The aim of education would not be successfully achieved if the individuals do not acquire proper skills for better timing in the future and for contributing to the development of society and to this nation as well.

The aim can only be achieved if quality education is imparted which may lead an individual to search truth, serve mankind and committed to establish a society and nation where peace, truth love justice and freedom prevails.

Only quality education can produce person with deep faith in God and deep rooted to their cultural heritage teachers are the active agents of social change they are the one who can transfer right values in the society so it is needful for them to acquire proper skills, teaching methods and optimistic opinion of life Kamala Nehru College situated in the rural area like korba . Is fully dedicated to the aim of education.

Among the number of departments in the Dept of education was established in the year 2011 its aim is to provide the society with such skilled teachers who can produce good citizens.

Aim & Importance -

Teachers are the one who can bring about social change. Requirement of good teachers is continuously increasing in the society to meet the demands of the society and schools of Korba. The dept holds the objective of providing good trained teachers to the society who have a sound personality, a good psychological base and a good knowledge of different teaching methods and techniques .The Dept. of education fully focuses on the quality training of

teachers innovatively with proper attention focussing on their bright career in teaching profession.

Some objectives of the Institute on are :-

1. To help in giving good trained teachers who help in the development of society and nation.
2. To help in Social change.
3. To help in spread of education and its awareness.
4. To help in increase of literacy in rural and urban areas.
5. To help them to develop their knowledge skills and abilities need to progress.
6. To help them for developing over all intellectual, physical, mental and spiritual value.
7. To develop competency to face future.
8. To help them to adapt in the increasingly diverse and ever changing would.

Activities in Dept of Education -

As Bachelor of Education is of one year degree course it is full of activities.

The department of Education carries out different activities from time to time focusing on the proper developments of skills. The department of education believes that only class room teaching and bookish knowledge is not enough if the pupil teacher is not taken to the field to have practical knowledge.

The following activities are carried on throughout the year.

- 1) **Micro - Teaching** - Teaching profession needs some skills knowledge of some new and innovative teaching methods are needed. For this micro teaching is held to give practice on 7 skills.
 1. Introductory
 2. Black Board
 3. Stimulus Variation
 4. Explanation
 5. Reinforcement
 6. Writing Objective
- 2) **Practice Teaching**- It is the main activity which is carried out at school for 40 days. The pupil teacher is taught to make lesson plan before hand so that he can teach accordingly.
- 3) **Internship** - With different activities carried out in the department. Internship is one activity held in the school situated in the rural areas of Korba.

The department of Education carries out internship at Saragbundia higher Sec. School, Saragbundia with the teaching held in the school. A survey is carried out in the village to bring awareness for education. Its aim is to

bring adjustment of the pupil teacher with the rural environment it is carried out for 10 days. The student teacher is taught to make a micro lesson plan before & hand according to which teaching is carried out.

Educational tour – It is known to us that learning takes place in many ways through educational tour. Students get many types of information which is not available in the books. Pupil teachers learn so many qualities of team spirit, cooperation, helping others, adjustment and unity they learn by seeing and observing. Tours are often made to historical places.

Dept of Education had taken tour to following places with B.Ed Teachers as the supervisors.
